

TYRE SIDEWALL & TREAD CUTTER

ENGINEERING SOLUTIONS FOR THE WASTE & RECYCLING INDUSTRIES

FEATURES

Gradeall international are proud to introduce its new Sidewall & Tread Cutter. The perfect tool for dissecting tyres from car to tractor size. The versatility of this machine is impressive, with an ability to deal with a wide range of tyre sizes from small car tyres to large agricultural tyres. Cut tyres are easier to store, transport and this aids further processing such as; shredding, baling, cryogenics and pyrolysis.

The machine is easily manoeuvred around on site thanks to its integrated forklift lifting points. The highest quality materials, construction, and extensive testing combine to produce a machine of impressive longevity with minimal running costs. Featured are hardened tool steel blades giving long service life, yet are extremely easy to replace and readily available from Gradeall.

- Can cut up to 60 truck tyres per hour
- High quality tool steel blades
- Easy to operate controls
- Full safety/splash guards fitted
- Integrated forklift lifting points
- Handles a wide range of tyre sizes

Can deal with this wide range of tyre sizes:

Model	Tyre Sidewall Cutter
Height (mm)	2228
Length (mm)	2650
Width - Standard Machine (mm)	2053
Width - with Tread Cutter (mm)	2992
Power supply	415v 3 Phase
Motor Size (Kw)	7.5
Cycle time per sidewall (Seconds)	7-12
Cycle time full tyre (Seconds)	45-120
Machine weight (Kg)	850
Noise level (dB)	65-70
